**Non Medical Non Clinical**

-----  
- a NHS Improvement Approved Framework

**Reference:** RM971

**Start Date:** 1 July 2015

**End Date:** Options until 30 June 2019

## Why Choose Us

The Non Medical Non Clinical framework is the only NHS improvement approved framework through which you can source temporary staff, interims and contractors in any non-clinical role from the most junior to the most senior, including board level roles.

- **Compliant:** NHS improvement price caps are contractually embedded in the framework
- **Flexible:** the framework override mechanism allows you to stay on framework if you need to go over the price cap to get the right staff, in exceptional patient safety circumstances
- **Free to use:** no customer fees or charges
- **Support:** we will give you advice and guidance on how to use the framework and provide hands-on support to help you achieve savings through the further competition process.
- **Managed:** the CCS in-house assurance team ensures that we, the supplier, complies with NHS Employment Check Standards
- **Regional:** Our extensive team of professional consultants allows us to provide national support

## Benefits

- **A clear charge rate:** straightforward rate card showing charge rates for both PAYE and limited company temporary workers based, including provision for compliance with Agency Worker Regulations following 12 weeks of service.
- **Risk management:** focus on managing the risks associated with engaging interim workers e.g. Agency Worker Regulations and stakeholder pensions.
- **Management Information:** available on demand for all customers to detail reported spend.
- **No temp to perm charges:** if you comply with the transfer fee rules.
- **Support:** from the Crown Commercial Service customer team.

## Getting Started

You can use the framework either as an individual trust (or public sector organisation), a consortium of trusts or a collaborative procurement organisation, such as a procurement hub.

Staff can be sourced on a temporary or fixed term assignment and the framework can be used to source roles of a specialist nature. We can supply you directly or through our supply chain of sub-contractors.

## Lot 4 Corporate Functions

Linea is an approved supplier under Lot 4 of the NMNC framework. Lot 4 covers the supply of all corporate functions. This includes Finance & Accounts, HR, Procurement, Project Management and Senior Business Management.

## IR35 Intermediaries Legislation

The recent changes to IR35 is set to significantly affect the way in which contractors engage with the Public Sector.

The framework facilitates options for resource to be provided outside of IR35 constraints.
