

Linea Branches Out in the Middle East

Press Release

Linea is pleased to announce that we have recently opened an office in Dubai - UAE.

In recent years, we have continued to support public & private sector organisations in Dubai and across the Middle East, which has prompted the requirement for a locally based office.

Our Dubai office is located in the **Business Bay** area, in the central business district of Dubai. **Empire Heights Tower** was completed in 2011 and is one of the commercial landmarks in Business Bay. It was developed by GPD Investments which is a European Property Investment and Development Group.

The building comprises towers and an imposing three story high podium offering; retail, restaurants, cafes, and an elegant landscaped alfresco promenade. In addition, **Empire Heights** provides a perfect work life balance near to the **Burj Khalifa** (the tallest tower in the world), and the skyline of **Dubai International Finance Centre**.

Linea Group Chief Executive, Ian Chambers commented 'We continue to support organisations in

the Middle East and wish to build our presence in the region. The development of a local office is a natural progression enabling us to better support clients, building on existing relationships and developing new ones'.

About Linea

Linea is a results focused organisational excellence consultancy with a track record of delivering sustained superior performance that meets and where possible exceeds client expectations.
